

CLEAN-IN-PLACE POWDER WITH BLEACH

Technical Datasheet

Rev.1 Date: 29/09/2022

DESCRIPTION

A highly alkaline, caustic based powder cleaner designed for use in clean in place systems. Contains a chlorine based bleaching agent. Intended for use in the food and beverage industry for effective removal of carbohydrates, fats, proteins and blood from commonly used metal or plastic equipment and surfaces. Can be used in any application where highly alkaline cleaning is required. Low foaming and suitable for use in soft and hard water conditions.

DIRECTIONS FOR USE

Use at concentrations of 0.5% for most CIP applications (5g/L).

For heavily soiled systems, dosage may need to be increased up to 1.5%.

Heating to 50 - 60°C is recommended with circulation for at least 10mins but ambient temperatures can be used if circulation time is extended. Do not exceed 70°C. Will require a rinse with potable water following cleaning.

Diluted solution can be stored and re-used for up to a week or until soiled.

Dilution at 5g per litre will produce approx. 210ppm of available Chlorine.

For use as a surface cleaner, sprinkle over the wet surface and scrub with a stiff bristle broom/brush, followed by a water rinse. For use as a liquid cleaner, dilute 5-10g per liter of water.

PRODUCT CODES & PACK SIZES

Product codes & Pack sizes: YC0311-1KG; YC0311C-2KG; YC0312 - 5KG; YC0312C-10KG;
YC0313-20KG; YC0314-25KG;

STORAGE

Keep in a cool, dry and well ventilated area at ambient temperatures.

CAUTION

Keep out of reach of children. Avoid contact with skin and eyes.

FIRST AID MEASURES

Eye Contact:

Will cause irritation. Flush with plenty of water and seek medical attention immediately.

Skin Contact:

May cause irritation. Wear protective gloves if required. Wash with water and seek medical attention if required.

Ingestion:

May cause nausea, vomiting and/or abdominal pain. Do not induce vomiting, drink plenty of water and seek medical attention.
